

FIELD OPERATIONS

MISSION: EXPLORE WITHOUT LIMITS

AGENT,

Your island headquarters may look like paradise, but appearances can be deceiving.

Beyond the pristine beaches and turquoise waters lies a world of opportunities for agents willing to venture beyond the ordinary.

Your mission? Explore, indulge and occasionally push the boundaries.

K has authorised a **rather generous operational brief**. How you choose to execute it is entirely up to you.

04.1 / YOUR FIELD HANDLERS

LOCAL INTELLIGENCE // ALWAYS ON CALL

K

Every agent will be assigned a dedicated island contact, known locally as a Bure Mama or Bure Papa. Consider your personal field handlers. They are your first point of contact for arranging activities, private picnics, or simply a quiet moment. They will make your deployment effortless.

FIELD DIRECTIVE When in doubt, consult your handler. They know the territory better than anyone.

04.2 EQUIPMENT & RECONNAISSANCE

Q BRANCH // MARINE DIVISION

A selection of equipment has been made available for independent reconnaissance. Bicycles, stand-up paddleboards, kayaks and Sailfish sailing boats are stationed at the Activities Bure on the main beach and may be used at your leisure.

Your local marine specialist, known as the Dock Man, is available to provide assistance and instruction.

UNDERWATER OPERATIONS

Snorkelling equipment and reef shoes will be prepared for your arrival, provided you have submitted your shoe size in advance.

Even secret agents need the right footwear.

04.3 SPECIAL OPERATIONS

ADVENTURE // BY PRIOR ARRANGEMENT

For those seeking a little more excitement, the following missions may be arranged through your handler or the Dock Man:

ARCHERY

Precision is everything.

SUBWING

An unconventional approach to underwater manoeuvres.

SCUBA DIVING

Intelligence gathering beneath the surface.

FISHING EXPEDITIONS

Patience, strategy and perhaps a little luck.

HORSEBACK RIDING

Reconnaissance by more traditional means.

Participation and scheduling should be coordinated locally.

K'S ADVISORY

Your mission is to enjoy yourself.
Heroics are entirely optional.

04.6 PRIVATE BEACH PICNIC

A SIGNATURE EXPERIENCE // ALREADY ARRANGED

Each couple has a private beach picnic pre-arranged — a chance, indulge and enjoy the island at its most secluded and beautiful.

04.4 MEDICAL INTELLIGENCE

CONTINGENCY PROTOCOL // YOUR SAFETY IS PARAMOUNT

Even the most accomplished operative occasionally encounters the unexpected.

Key island personnel are trained in first aid. A registered nurse and doctor are available on a neighbouring island, with additional medical advice accessible by telephone.

The island maintains first-aid supplies, an automated external defibrillator (AED), oxygen and EpiPens. A first-aid kit is also provided in your bure.

The nearest hospital is approximately 30 minutes away by helicopter.

FIELD DIRECTIVE

Agents with specific medical requirements should bring sufficient medication and any personal medical supplies required for the duration of their assignment.

04.5 HYDRATION PROTOCOL

WATER SECURITY // VERIFIED

Bottled drinking water is provided throughout your deployment.

Tap water may be used for brushing teeth and rinsing, but bottled water is recommended for drinking.

An effective agent knows when to stay sharp — and when to stay hydrated.
